

# Omniscout - Dolmen Offer

omniscout

With €150m of vehicles stolen in Ireland annually equating to 350 vehicles a week, the small, portable omniscout is a "must have" for all asset owners. It will determine and report the global location of any mobile asset, vehicle or person in which or on whom it is located with an accuracy of a few meters.

Dolmen Insurance Brokers and Omniscout have joined forces to offer you reduced rates on the omniscout tracker for your most valuable assets.

Omniscout are an Irish own company who provide a unique patented dual location based technology which can determine and report the global position using GPS/GPRS based technology.

Omniscout is the world's smallest and most reliable GPS tracker device and is the first such GPS device to offer patented AAGPS (adaptive assisted GPS) which ensures accurate and reliable location and tracking information even in areas where there is no GPS signal such as underground car parks, containers and other previously untraceable locations.

The omniscout uses a flexible, dual function, GPS based monitoring and tracking system. Omniscout's patented GPS products have been the standard technology for the USA and Canadian Law enforcement agencies including: FBI, ATF, DEA and US Marshals.
